"Kids who try Meth...."

I am so bored.  
My friends are no fun.  
There is no place to go.  
I've already **done** that.  
Nothing exciting ever happens in my life.  
My life is a **drag**.

Kids who try **Meth** try to tell you **first**.

Never underestimate the power of boredom. It is why the drug meth has become one of the most dangerous drug problems in America. To learn more about the effects of this powerfully addictive drug, you can visit us at: [www.drugfree.org/meth](http://www.drugfree.org/meth). And start listening to what your kids are really trying to tell you.
